Financial Affairs. The inquiry for Money, yesterday, was unusually large, in consequence of the payments maturing on the 4th; but most of the liabilities were promptly met, very little more Paper lying over than there was on the 4th ult. A number of Notes and Bills belonging to manufacturers, having had dealings during the present year with the South, were laid over from the inability to collect soything in that section at the present time. The Monetary market continued close, decidedly so, with a general indisposition to do any Paper, even the very best, when it could possibly be avoided.

The accommodations extended at present are very light, and high rates are no inducement to purchase Paper, which can be bought at 24@30 per cent. per annum without the least difficulty. Indeed, 36 per cent. would be paid in some instances for temporary Loans, if they could be, with undoubted securities. The supply of Currency continnes stendily to decrease, and the market is growing more stringent.

Eastern Exchange was generally called steady yesterday, though some dealers termed it a little heavy, but the selling rates were unaltered. New Orleans Exchange was in more demand, and the Bankers were offering par for prime Sight Checks, and charging 1/4 premium. Considerable orders were received from the country and adjoining cities for Exchange, and this, with the Drafts made for remittances for collections, induced a stiffer market at the close.

Time-bills were generally quiet, 12 per cent, per annum being about the rate for those on the East and South, though we heard of some transactions on the former quarter at 9 per cent., which was below the

to the Chamber of Commerce, yesterday afternoon, were unfavorable and discouraging. Here Flour was still very dull, and the demand limited. Whisky was in active demand, and firmer. Groceries were quiet, and Grains underwent no particular change. Provisions generally were firm, and in fair demand, mess Pork selling at \$14,25, with more buyers than purchasers at the close. The receipts of Hogs were light again yesterday, and the demand better than on Monday, at higher prices; about 2,200 head were disposed of at \$5 25@5 50, heavy Hogs closing at the latter figures.

The following are the imports and exports during the twenty-four hours ending yesterday at noon:

Imports—Apples, 620 barrels; Barley, 1,724 bushels; Butter, 214 packages; Corn, 6,329 bushels; Cheese, 523 boxes; Coffee, 379 bags; Flour, 3,072 barrels; Hay, 295 bales; Hogs, 6,457 head; Lard, 44 barrels; Malt, 185 bashels; Oats, 4,578 bashels; Pork and Bacon, 15 barrels; Potatoes, 11 barrels; Salt, 221 barrels; Wheat, 1,082 bashels;

Salt, 221 barrels; Wheat, 1,082 bushels; Whisky, 2,363 barrels.

Exports—Apples, 139 barrels; Butter, 6 packages; Candles, 94 boxes; Cheese, 34 boxes; Coffee, 176 bags; Flour, 212 barrels; Lard, 577 barrels and 50 kegs; Molasses, 154 barrels; Malt, 4,236 bushels; Pork and Bucon, 196 hogsheads, 107 tierces, 293 pounds; Rye, 104 bushels; Sugar, 37 hogsheads; Salt, 405 barrels; Wheat, 562 bushels; Whisky, 447 barrels.

Yesterday's Louisville papers say of Hogs: Hogs have been without animation, and at nominal rates at the past week. Several lots were offered but found no takers at any rate favorable to holders. Probably 5c. net is the highest price at which Hogs could be sold a time. The killing progresses rapidly and 111,348 head have been slaughtered around the Falls up to this evening, against 19,751 head to the same time last year, when there were 26,610 head in pens against about 18,000 head in pens this evening.

"Glit edge" names are offering to-day at 156 13 per cent, though at these figures there is more doing. The necessities of the market so far as call Loans are concerned, appear to be diminishing, and Capital on approved collaterals is much more accessible at 7 per cent.

Bostos Boor and Shop Market—Saturday, December 1.—The only movement of importance this week has been the general effort to raise Money for the payment of Notes coming due. An extier state of affairn is now untilepated, on account of the recent action of the Boston Banks, and it is to be housed that trade will soon flow smoothly in hoped that trade will soon flow smoothly in its accustomed channels. There seems to be its accustomed channels. There seems to be at present-flut slight cause for a panic or pressure. Very few orders are, of course, received, and if, perchance, a Western or Southern buyer is seen on Pearl-street, the infecence to be drawn is that he wante his Paper extended. Manufacturers are giving out but little work, and many express their determination to make up no more goods until after the commencement of the new year. In the mean time, stock is held at nominal figures, and almost any rates would be submitted to, on the part of holders, to realize the cash. The total shipments of Boots and Shoes by rail and see, for the week, have been 4,808 cases. Corresponding week last year, 7,785 cases.
